About Us

- **Shijiazhuang Shenghongyuan Trading Co., Ltd.** is a manufacture and trade company which is specialized in exporting Metal Art Products, related Mechanical Equipment and Building Metal Products, developing quickly in the fields of Steel Finished Products, such as Gates and Fences as well as Precision Castings and Stainless Steel Pipes & Fittings.
- Cast Grey Iron Components (Fittings) have different styles in more than two hundred sizes in material of grey iron which can be welded by cast iron electrode.
- Cast Steel Components (Fittings), Wrought Iron Ornamental Products and Steel Stamping Components (Fittings) include Spears, Flowers, Leaves, Caps, Collars, Scrolls and Panels in material of low carbon steel class 25-35 which can be easily welded by the steel electrodes.
- Steel Finished Products include Steel Stairs, Steel & Iron Gates, Metal Fences and Candle Holders.
- Mechanical Equipment includes Multifunctional Combination Wrought Iron Machines, Basket Machines and End Scrolling Machines.
- Stainless Steel Pipes & Fittings are widely used in middle or large scale construction projects, such as drinking water, cold and hot water, tap water and gas-supply systems. Stainless steel press fittings (CJ/T152-2001) comply with the industry standards of three national standards (GB/T19228.1-3, 2003).
- By focusing on quality and service, we've been witnessing fast growth and expansion of our customers' businesses year after year. Our goods have been exported to European, South American and the Middle Eastern countries for many years. You are welcome to read our catalogues with the detailed styles and pictures.
- Please do not hesitate to send us your requirements or any special idea. Our production flexibility and diversified range also allow us to fulfill even the smallest overseas order. We will supply you with the best quality for our long term business relations. We hope our metal products sell very well in the international markets.
- At Shijiazhuang Shenghongyuan Trading Co., Ltd., we work hard for mutual success.

01 COMPONENTS

Wrought Iron, flower panel, rosette, balusters

1. Material: Mild Steel

2. Can be welded and galvanized

3. Surface Finish: Antirust oil, Hot-dip galvanized, sandblast

Are hand forged by skilled craftsmen, who have more than ten years experiences. The balusters are made of square bars and round bars, widely used on wrought iron gates, fences and stairs.

Any designs or works along with drawing could also be produced.

02

GATE AND FENCE

1) Material: Wrought Iron.

2) Process: Hand Made.

3) Finish: Hot-dip galvanizing, zinc, powder coating, as customers' requirement.

Gate and Fence are a combination of our hand forged wrought iron components, as basic as simple bars, tubes and beautiful flower panels provides a very sober, however elegant result.

Villa • Garden • Fence • Gate

Installing a wrought iron gate not only provides security and defines a space, but also adds a feeling of elegance and refinement to your yard or garden.

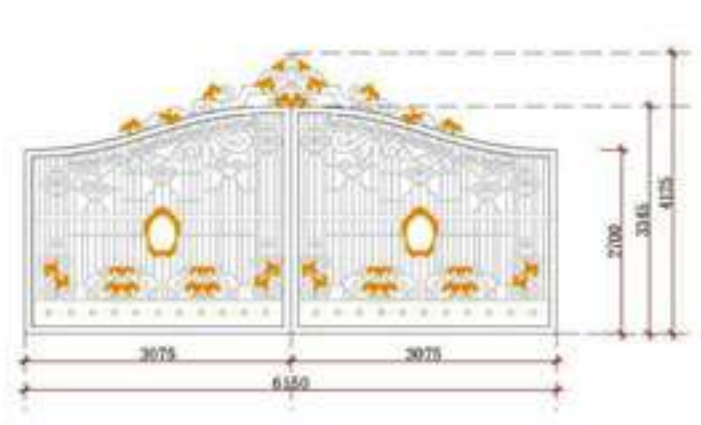

An ornamental and wrought iron fence displays your property's focal points in an elegant fashion and shows off your beautiful, maintained landscapes and well-manicured lawns!

FENCE

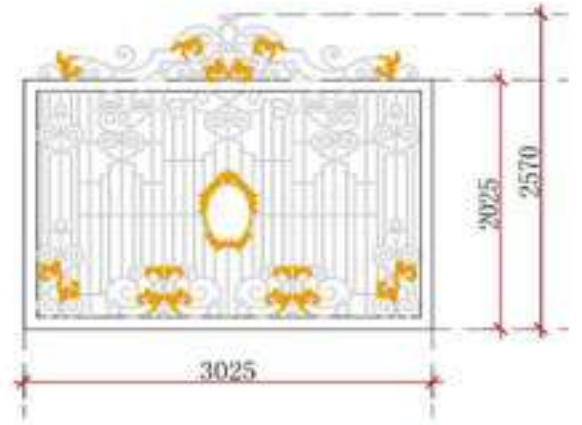

We stock the most popular styles and sizes of our wrought iron gates or fences; however, we understand that these may not meet your needs. That's ok because we can accommodate custom designs, different colors, specific sizes and heavier grades.
